

WHO WE ARE

Transport for cars that can't take chances.

HaulKing is an owner-operated enclosed and prestige vehicle transport specialist based in Sydney, working the whole metro and interstate by arrangement. We move supercars, hypercars and rare collector cars for premium dealers, private collectors and specialist workshops — the cars where condition, discretion and a single accountable operator matter more than a cheap rate.

Enclosed transport

Fully covered, closed-frame carriage that keeps weather, road debris, dust and eyes off the car for the entire journey. The standard for concours cars, new deliveries and anything irreplaceable.

Low-entry loading

Ultra-low approach angles and race ramps load slammed supercars and hypercars without the nose, sill or splitter ever touching down — the loads other operators turn away.

THE STANDARD, EVERY MOVEMENT

- **Owner-operated.** The person who quotes is the person who loads, drives and unloads. No subcontractors.
- **Photo condition report.** Documented before loading and after delivery, timestamped and shared.
- **Live updates.** You know where the car is from pickup to delivery.
- **Soft-strap securing.** Wheel-only tie-downs and padded points. Never a hook or chain near paintwork.
- **Discretion.** What travels and where stays private. It matters as much as protection to most of our clients.
- **Also:** accident recovery, 24/7 response, and dedicated interstate runs.

ENTRUSTED WITH

Ferrari · Lamborghini · McLaren · Porsche · Rolls-Royce · Bentley · Aston Martin · Mercedes-AMG · BMW M

TRADE & COLLECTOR ACCOUNTS

Premium dealers, detailers and specialist workshops run HaulKing on account: priority booking, agreed rates, consolidated monthly billing, and a photo condition report on every movement. One operator who treats your customers' cars the way you would.
